## Advanced Auto CPR Solution

### E6 Cardiopulmonary Resuscitator

Simulates  
Manual CPR

Chest  
Compression

#### CPR Modes

15 : 2  
30 : 2  
Continuous compression  
Conform to AHA and ERC guidelines

#### Power Supply

AC/DC power supply  
Support charging during operation to ensure uninterrupted use

#### EtCO<sub>2</sub> Measurement

Real time monitoring of the end-tidal CO<sub>2</sub> concentration (EtCO<sub>2</sub>) in exhaled gas (optional)

#### Portable

Compact, lightweight only 8.9 kg  
Easy to carry

## Easy to Install

1. Place the back plate under the patient.
2. Attach the support legs to the back plate.
3. Set the start position for the suction cup with just one press.
4. Install the stabilization strap.

## Auto CPR

Electrically driven & Electrically controlled

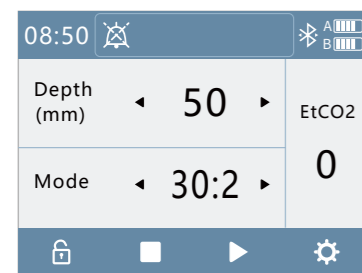

reddot award 2021  
winner

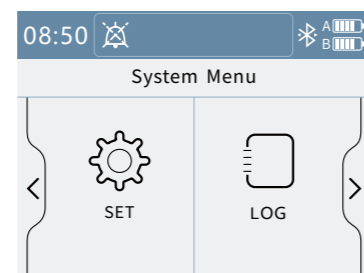

## Touch Screen

3.5" color touch screen  
Clear and intuitive, simplifying work and saving time for cardiopulmonary resuscitation

Main screen
